Programs based on conditional statements:

- 1. Write a program in JS to find a greater of 2 numbers
- 2. WAP in JS to find if the given no. is positive, negative, or zero
- 3. WAP in JS to find if the given no. is an even no. or an odd no.
- 4. WAP in JS to find greater of three numbers
- 5. WAP in JS to print "FIZZ" if the no. is a multiple of 3, "BUZZ" if the no. is a multiple of 5, and "FIZZ BUZZ" if no. is a multiple of both 3 & 5.
- 6. WAP in JS to enter marks in the range 10 to 100 & print the remark based on the following conditions

Marks	Remarks
>=80	Excellent
Between 60 and 80	Well done
Between 40 and 60	Needs Improvement
< 40	Try Something Else
